Those sound correct but I'm home grading final papers from last semester. Let me check my files at work and I'll confirm or correct?

I hate my students at this time of year... But I'll forget the pain by next Fall.

Hi Kate, I was looking through my files and trying to make sure I have preserved the last draft of the CD for OU1 and 2. (my archives failed at some point). The last e-mail containing what I believe is the last draft for OU1 is from you on 5-26-09. And for OU2, my last e-mail from you is on 4-19. When you are not busy on more timely items, would you check your e-mail to see if you believe these are the last drafts?
